Here's a useful and fun Macro Manager! Keyboard shortcuts can be extremely useful when you need to perform certain tasks very fast. Though with so many key combinations and annoying passwords for different services it can be hard to remember which combination you are supposed to use for what. Keyboard manager allows you to bind your favourite keyboard shortcuts to different services and apps. Using key-combinations like Ctrl+Tab to switch between open applications on the desktop, Ctrl+I to switch to the web browser etc is a very useful feature. You can choose to add a shortcut for yourself, like a single key combination to launch a program or an application shortcut with a custom shortcut or combination of keys. You can also use the key-combo to bind keys to programs, websites, devices, etc. Moreover, there are customisable hotkeys and keyboard shortcuts. To use the software, all you need to do is insert the CD and run the program. Main features: Customisable hotkeys and keyboard shortcuts; Add custom shortcuts for your apps and services; Switch to different app windows and web browsers with keyboard shortcuts; Make shortcuts to files, services and devices; Insert the game disks, DVDs, CDs and even the DVDs with the DVD Importer; Import the books, images, icons, cursors and other files that you need from the CD or DVD; Create shortcut for web pages, device, file and services; Import keyboard layouts, controls and sets; Make your life easier with macro-shortcuts and hotkeys.
