Now I need to find no. of students in each class. I am using below query. But it is not returning the result as expected. SELECT s.id, s.name, s.classid FROM student AS s INNER JOIN class AS c ON c.id=s.classid; A: select s.id, s.name, s.classid, count(c.id) from student as s inner join class as c on c.id=s.classid group by s.classid,s.name; Check count() usage here Farnesol in the induction of the genes encoding nitric oxide synthase and guanylate cyclase in HaCaT cells. The effect of farnesol on the expression of the genes encoding nitric oxide synthase (NOS) and the guanylate cyclase (GC) has been studied using the human keratinocyte cell line HaCaT. Farnesol (FAR) (30 microM) induced GC activity and GC protein expression after 48 h of incubation. Transcription of the gene for GC was induced by FAR. The induction of GC by FAR was associated with the increased protein levels of GC and increased transcription of the GC gene. FAR also induced the expression of the NOS gene, although the protein was not detected. Transfection of cells with plasmids containing the GC promoter fused to a luciferase reporter gene demonstrated that FAR increased the promoter activity of the GC gene. Farnesol was also shown to induce an increase in the NOS activity and NOS protein in HaCaT cells. The effects of FAR on the expression of NOS and GC genes in the HaCaT cells appeared to be mediated by the regulation of their gene transcription.Q: How to copy file to device using InputStream I'm trying to copy file to device on button click. I have InputStream to file, how to copy it to device without 2d92ce491b
