Social Media Social media allows quick sharing of information and access to instantaneous support from the community. The IEC uses Twitter, Facebook, YouTube, Instagram and Pinterest. IEC Social media links Category:International Electrotechnical Commission Seed stage patent applications for small companies - gregpilling Are small companies encouraged to file patent applications before getting to the real time of startup, i.e., more than a year before product launch? I'm asking because my company is in a unique situation where we do not need to file a patent and the product launch date is about two years from now. I'd rather my company spent its time building out the product rather than the legal side of things. ===== gregpilling There are many ways to do it. We

rare cause of ankle pain in a  
rheumatoid arthritis patient.

Rheumatoid arthritis is a chronic systemic disease, which can affect the lower extremities. The most common clinical manifestations of rheumatoid arthritis are joint swelling and pain. Despite the low prevalence of tuberculosis in Europe, its incidence in the Balkans is still higher than in the rest of Europe. We present a patient with tuberculosis who presented with ankle pain. A 69-year-old female

---

was admitted to our hospital with ankle pain and swelling. The patient had a history of rheumatoid arthritis for more than ten years. She had also been diagnosed with tuberculosis more than 10 years ago. Her ankle pain had been continuing
