With 129 presets of crazy, pitch-bending arpeggios, deep basses, complex drums, screaming risers, fat chords, pianos, cowbells, and swinging, moving synths, this is **TRAP VOL 2** - Download free Nexus presets & Nexus Expansions If you liked the Vol 1 Traps pack with over 500 Nexus presets and Nexus expansions. You want instruments and effects to stay with you throughout your recording session so you can easily change them anytime you want. You probably use more than 200 instruments and effects in your studio, but you don't want to waste time searching for all your instruments and effects if you want to start a new session. Then you need a collection of tools and effects that will be with you all the time and make it easy to change them at any time. fffad4f19a
