References External links Official website Category:Laser-assisted speed welders Category:Japanese inventions Category:Manufacturing companies of JapanQ: django nonce https request I am building a website which uses https connection for login. I am trying to add a nonce so the user only authenticates once. How do I add a nonce to the url which is generated by request in django? url = django.utils.http.urlquote(request.build\_absolute\_uri()) return HttpResponseRedirect(url) I can't find anything in the docs about adding a nonce to the URL. A: This seems to be covered in the docs: nonce=httponly This is the nonce to be used as the session nonce. The nonce should be a random string of numbers and letters, but this is a valid form also: bJQnl0wqEjz2mVKZ3v ...and in ...should add a session cookie named session\_id... session\_id= ...and a X-Frame-Options header... X-Frame-Options: SAMEORIGIN GENERAL NERVOUS SYSTEM PROBLEMS: Fainting • Quick description: Almost instantaneous relaxation and weakness of the nervous system. There is rapid onset of a headache or dizziness • Causes: Emotional or physical stress, eating large meals, or alcohol ingestion. • Typical symptoms: Head aches, numbness or tingling in hands, arms or feet, Page1 Page2 Relief or control: Headache/tension • Complete remission: • Malignant: Interferes with activities • Short-term remission: Control • Long-term remission: Avoidance of the triggering event T
