These 3D models are based on AutoCAD engineering drawings. In 2019, Autodesk began to use 3D Hubs to sell AutoCAD map information and bring that information into the 3D printable models. They are using this data as the basis for 3D printing solutions for architecture and retail store design. In 2020, Autodesk is going to replace AutoCAD Map 3D and AutoCAD Map 3D Enterprise with AutoCAD Map Editor and AutoCAD Map Professional.
