ISBN.Product Description Choose between the silver look (shown here) or the gold look. With this handsomely designed bowl-shaped vase, you can still enjoy the look of a realistic potted plant without the need for a pot, soil, or annual care. Simply fill the vase with water and set it in a sunny window to enjoy its natural beauty for weeks on end. Includes 8 plants, 2 artificial moss balls, and 4 artificial moss sprigs Mouth-blown vase measuring 10" tall, 4-3/4" wide at the lip and 2-3/4" tall at the baseQ: Is there any way to draw on a graphics window from a win32 console application? I want to draw a line on a windows form window from a Win32 console application. Is this possible? A: The simplest way is: Graphics.DrawLine(Pen, (int)window.GetWindowRect(handle).Left, (int)window.GetWindowRect(handle).Top, (int)window.GetWindowRect(handle).Right, (int)window.GetWindowRect(handle).Bottom); I'd either write the code in a separate DLL or you can create a WinForms / WPF application, create a Win32 form in it and add the control, then invoke the standard API's in the console application. An integrated circuit ("IC") is a device that includes one or more semiconductor devices, such as, but not limited to, a transistor, diode,
