Calculate Body Fat Percentage in a Few Seconds Keep the age

of the users in mind and modify the range according to the age group This Body Fat Calculator Activation Code calculates your body fat percentage using the method of skin fold estimation, which is an easy and effective method. It does not require any scientific background or a complex equation. It simply requires you to gather a few simple measurements from your body. What do you need to perform a Body Fat Percentage measurement? A Skinfold Caliper Weight Scale Body Fat Calculator helps to calculate your body fat percentage using a fat parameter measurement of the three main areas of your body. Three different parameters are used for the calculation of Body Fat Percentage, depending on your gender and age: Calf and thigh measurement (for men) Biceps and triceps measurement (for men) Thigh measurement (for men and women) It's very easy to use this Body Fat Calculator spreadsheet. Just select the body part and measurements you want to enter in the Excel cell below, and you will get the result in the next box. How to Use this Body Fat Calculator Spreadsheet? First of all, enter your age in the 'Age' box (in years). After that, you have to take a measurement of your current body fat parameter. For example, if you want to calculate the body fat percentage for men, you have to measure the Calf and thigh. If you want to calculate the body fat percentage for women, you have to measure the thigh.

Measurement of your selected parameters After you have measured the parameters of your body, select your gender and enter it in the gender drop-down menu. After the gender, you have to select the body part from the drop-down menu that you want to use. You can select the Biceps or Triceps for men, and the Thigh for women. Then, enter the measurement for your selected body part in the box below the gender. Then, enter the measurement for your selected body part in the box below the selected gender. Steps to calculate Body Fat Percentage using this Body Fat Calculator Enter your age in the 'Age' box Enter your gender in the gender drop-down menu Measurement of your current body fat parameter Enter your selected body part in the selected gender box Enter the 77a5ca646e
