The Online Computer-Aided Design (OCAD) service (AutoCAD LT Web) also works as a server-client architecture. The Autodesk server holds the data and makes it available to the clients, which can be other Autodesk programs, websites, or mobile devices. AutoCAD is marketed as a non-linear, drafting-based CAD application. It allows for the planning and drafting of architectural, civil, and mechanical designs, and for the creation of 2D and 3D models that can be used for construction, engineering, manufacturing, and presentation. AutoCAD 2012 was released on October 1, 2011. It is available in 32-bit and 64-bit editions.
