It is stunning, well constructed, and can be used for everything from work to shopping. You can use it as a cross body, shoulder or cross body tote. The only thing that is slightly annoying is the handle. I'm not crazy about the strap that connects to the handle, but I can live with it. I highly recommend this bag and would love to win it! I really like the thickness of the strap. I think that it is very strong for its weight! I love the color and it's classic appeal. Perfect for college and I've had it almost a year and am happy with it. I love this bag! I've had it since Summer 2013 and it's only now that I've started to feel like using it. It's large enough to get everything I need to and small enough to fit in the shower. I love the handle, and the way it collapses, is perfect for putting in my bag when I don't want to lug a heavy purse with me everywhere. Plus it's just a gorgeous color. I've only had this bag for about four months and love it 09e8f5149f
