0[Synthesis of Hydroxyapatite] Our company has realized successful projects in research and development, production, sales and service for hydroxyapatite for more than twenty years. Based on a rich experience of product development, the more than 20 years' successful experience in the R&D and manufacturing of hydroxyapatite for more than 20 years, our company has developed several kinds of high-purity and high-crystallinity synthetic hydroxyapatite products. The products have wide applications in fields such as dental biomaterials, orthopedic biomaterials, implant materials and various medical devices, and can meet various requirements on the quality of products.

Process Description The most important and suitable method for the production of hydroxyapatite is the sol-gel process, which has been used for decades in the R&D and manufacturing of many kinds of high-purity and high-crystallinity synthetic hydroxyapatite products. Our Company has completed the pilot-scale of hydroxyapatite by using waste. High quality, strong and pure hydroxyapatite, which is mixed with the fluid of seawater, could be purchased by the company. Various materials with excellent comprehensive properties may be produced by our company in the fields of biomaterials, wound healing materials, skin care materials, hair care materials, food packaging materials, and implants. The company's products have been widely applied in the fields of dental implants, orthopedic biomaterials, joint replacement surgery, bone diseases and dental disorders, and have achieved a good market response.Q: How to get data from the facebook graph api? This works perfectly: try{ \$data = \$facebook->api('/me'); \$fname = \$data['name']; \$lname = \$data['email']; echo \$fname;
