No blinking ones, no flashing ones, none. Limitations: Two Symbol Limit I have looked into this. You can choose the number of stocks that can be displayed in the current view. I set the "Maximum width" to 35 I have looked into this. You can choose the number of stocks that can be displayed in the current view. I set the "Maximum width" to 35 With some studies, it says that it's the way the screen is designed. I am saying that it doesn't respect the number you set in the preferences dialog. With some studies, it says that it's the way the screen is designed. I am saying that it doesn't respect the number you set in the preferences dialog. A: No. From the documentation: You can add a maximum of 100 symbols to the app at a time. Even if you set 100 and have 99, it won't ever show 99 of them. There's no option to change that. package com.example.bookstore; import java.util.Collection; import java.util.HashMap; import java.util.Map; import java.util.Set; import javax.persistence.Entity; import javax.persistence.Id; import javax.persistence.Map
