What's New In?

Norman System Speedup is an application that enables you to optimize and clean your Windows-based system's performance, by offering a wide range of tools and utilities you can use to optimize and clean your machine. Professional hard disk defragmenter, disk recovery and file shredder. Master Disk Shredder has all the tools you need to securely erase data from your hard disk drives, after they have been partitioned. Master Disk Shredder also includes a powerful defragmenter for Windows systems, an advanced file recovery software, a file shredder to prevent sensitive files from ever being recovered, and a built-in secure data eraser. Master Disk Shredder can operate on FAT16 and FAT32 file systems, and work with NTFS file systems as well. Simply run Master Disk Shredder to perform the secure erasure and hard disk defragmentation of your drives. You can configure Master Disk Shredder to defragment all available NTFS partitions or just one. The program will check the status of all supported file systems, and prompt you to delete files on the drives if they are in an unreadable state. If you need to shred your hard disk in a hurry, Master Disk Shredder can do that for you too. Master Disk Shredder provides multiple options for shredding files, including wiping the drive or filling it with gibberish. Master Disk Shredder can also shred hard drives if they are encrypted, or when you need to destroy data to protect against data recovery. Master Disk Shredder is intuitive, easy-to-use, free of clutter, and will provide you with the peace of mind that comes with performing a hard disk security erase. Master Disk Shredder can even be used to protect against data recovery with a powerful option that allows you to permanently disable any optical media drives.

Norman System Speedup is an application that enables you to optimize and clean your Windows-based system's performance, by offering a wide range of tools and utilities you can use to optimize and clean your machine. Norman System Speedup Description: Norman System Speedup is an application that enables you to optimize and clean your Windows-based system's performance, by offering a wide range of tools and utilities you can use to optimize and clean your machine.
