The Windows Store has come a long way in terms of presenting you with a clean user interface. On the flip side, it has also come a long way when it comes to the ads that take over your screen. Well, there are various workarounds to such an issue. But the fact is that Microsoft just cannot seem to take its ads seriously and we have to face the grim reality that we cannot completely rid our PCs of ads. We have tried a bunch of apps that do the trick, but there are a few that genuinely get the job done. Nuad is a PC program that not only limits ads, but also allows you to mute ads with sound. Basically, the application blocks Windows ads and consequently, the annoying sound that accompanies them. To make the ads disappear, all you have to do is launch the program, hit the mute button and the ads will vanish. One of the best things about this application is that it is small and does not take a lot of resources to run. It takes up no more than three megabytes of your storage. If you prefer to have more control over your PC, there are lots of other ways to remove ads. But if you simply want to remove those annoying ads from Windows, then you should give Nuad a try. Nuad Description: " Nuad is a simple, effective and efficient tool that removes the annoying ads that often appear on your PC. " Download: Details:

What's New in the?

fsriev is a little utility designed to make your life easier when you have to handle a lot of files or folders. It gives you a nice CLI interface that gives you the chance to set up the objects you want to monitor, and you can then easily run custom commands to act on the changes your objects have experienced. If you have any problems with it, please let me know. --[hong-zhiyu @ satux / ms]-- More information: GitHub issues: Satux online: How is it different to Xplorer2? The two tools offer the same feature set, with Xplorer2 being a bit more up-to-date and feature-rich. To my knowledge, fsriev is also available on the windows store. Xplorer2 can be used to back-up all your Windows apps, either from C:\Program Files or from other drives (F:, S:), encrypt the files, compare two files and much more. Fsriev does support the most of these, but there is no solution for backing up the system apps nor is it able to compare files or handle encryption. What are the big pros and cons of fsriev? Pros + Very easy to use + No dependencies to a big project, just a CLI utility + Useful and useful features such as notification, exclude filter and object properties + More information is provided on their GitHub and on their website. Cons - Not suitable to create backups of your system apps - No encryption support - No comparison of two files - Not suitable to watch directories and files - Not suitable to watch shared folders - Only available for Windows Livestream software and more Description This is a list of free software that can be used to livestream from your computer to the internet.
