In particular, the in-game character motion controls are enhanced with greater responsiveness and more accurate timing than ever before. The impact of ball collisions is more fluid, and ball flight is more precise. Your opponent will dodge you, and you'll be able to read his game with enhanced player intelligence that uses feedback from the ball and the pitch to help defenders make decisions. It's the same data that EA Sports used to power the FIFA series' always-improving game intelligence, and it's letting us deliver an experience designed for high-octane competition. **Kawasaki Disease** Kawasaki Disease Kawasaki Disease is a very common acute vasculitis in children. It is the most common cause of acquired heart disease in children. Each year in the US there are about 4000 cases of Kawasaki Disease which involve about 0.1% of the population. The disease usually occurs between the ages of 6 months and 4 years. Presentation It presents with a varied clinical spectrum, ranging from mild infection to the most severe form of the illness, Kawasaki Syndrome. The first signs of the disease may start to appear anywhere from 2 to 6 weeks after exposure to a respiratory infection. It may be missed if not suspected by the doctor. The most common features of the disease are high fever, irritability, tender red areas on the hands and feet and redness of the eyes. Other presentations may include sore throat, rash, muscle aches, vomiting, irritability and diarrhea. Additional signs and symptoms are present in the children with shock, bruising or red eyes, high heart rate and loss of appetite. Children with moderate form of the disease may have painful stiff joints especially in the morning. In the children with severe disease symptoms may include cervical lymphadenopathy, breathing difficulty, extremity edema, gall bladder inflammation, and blood in the stool. In a few patients with prolonged fever or milder form of the disease may just have a skin rash. Causes of Kawasaki Disease The cause of Kawasaki disease is unknown. However, there are two theories about the possible causes: there is an environmental agent and a viral theory. In the infection theory, there is a possible role of a respiratory infection in triggering the disease process. While in the virus theory, the disease is thought to be a hypersensitivity reaction

Structure-driven shape transformations in the benzene-tris(imidazol-1-yl)borate adduct. The reactivity of the benzene-tris(imidazol-1-yl)borate anion 1,3-bis(imidazol-1-yl)benzene-borate, 1, toward several organometallic gold(I) and silver(I) complexes [(C6H5)Au(R)(BPh3)] (2, 3, 5) and [(C6H5)Ag(C6F5)(BPh3)] (4) has been investigated. At room temperature, a monomeric benzene-tris(imidazol-1-yl)borate adduct 2 is formed in aqueous solution. The formation of 1 is driven by the structural transition of the imidazol-1-yl moiety from the "bent" configuration in 1, to the "in-plane" configuration in 2. Benzene is released upon the reaction with organometallic gold(I) complexes, whereas in the case of organometallic silver(I) complexes, the benzene could be selectively attached on the imidazol-1-yl moiety. Benzene is not released upon treatment of 1 with [(C6F5)C6H5AgCl] (6). Reaction of 1 with 2,3,5-tris-tert-butyl-1,4,7-triazacyclononane ((t)Bu-TACN) in methanol/water (1:1 v/v) leads to the formation of complex 5, in which the tBu-TACN moiety coordinates to the vacant coordination site of 1. The morphology and packing of [(C6F5)Au(BPh3)]<sub>2</sub> (3) in 1 and 5 have been investigated by scanning transmission electron microscopy (STEM) and transmission bc9d6d6daa

#### What's new in Fifa 22:

- **Play your first-ever match for a FIFA Club\*** - Play to have your new club's first official match in your FIFA career. Or go into your FIFA Career mode with a goal already set in your mind: compete for the Manager of the Year Award. Whether you play for a club that is new to the full-scale game, or a long-time club favourite, you will begin your FIFA 22 career on a high note as you play out the first-ever match in this full-scale sports title.
- **Full-scale Passing Play** - Add to the already intricate passing structure introduced in FIFA 15 with full-scale passing. Passers can now complete passes with the back of the foot, pass with the boot or the top of the foot, or, for the first time in FIFA, spit on the ball while on the run and slide the ball under an on-rushing defender.
- **Authentic Sound\*** - Captive presence and experimental sound technology have been used to craft hundreds of new, authentic footstep sounds so players will hear the attacking play of your club. Should a player tackle or challenge another player, they will hear the on-pitch environment around them come to life with the sound of players hitting out at the ball and attacking each other with a fair degree of tempo and aggression!\*
- **New Camera Position - and more!** - The camera has made way for a more cinematic presentation through the footwork of the football players. But not just camera angles, the wider angle experience is part of the reimagination of ESPN's immersive ESPNMatchday experience that delivers exclusive stories with more detail at the feet of the commentators and commentators and players to the stadium.
- Revolutionary AI and system pipeline to introduce more movement and emotion Zidane then dives in - The all-new AI is the most intelligent and robust football engine ever created. Player decisions are informed by hundreds of seasons' worth of coaching data on the world's best footballers
- Play on the NFL field with the all-new design surface functionality. Now you get to be the star quarterback, punter, and kicker on a field that feels like a real NFL field!

FIFA is football as it's meant to be played. A sport. A passion. A way of life. The game that started it all. Our goal is to deliver the most authentic football experience possible. That's why we spend an incredible amount of time testing, listening to you, and always looking to find new and exciting ways to deliver authentic football and push the limits of gaming. Design Principle: Play Football. When it comes to football, the greatest fans know it's not just a sport. It's a game of strategy and skill. Our greatest players know it's not just a sport. It's a sport of passion. It's a sport of violence and hate. Each time you take a shot at your opponent, whether from the penalty spot or from open play, you must choose who you want to injure and whose you want to praise. That's the essence of what makes football so special. Our goal is to perfectly balance the skills and passions of the sport with the actions and emotions of a video game. This is your chance to experience all of that. To test your skill. To beat your friends and feel the satisfaction of that victory. You choose the difficulty level. You decide what shot to take. You decide the strategies. And you decide how you want the game to develop. Bring the worlds of football to life. At the heart of FIFA are the plays that define a great match. Passes. Blocked shots. Individual brilliance and tactical thinking. Pure joy and pure competition. Each year we continue to strive to bring you more of these moments. Driven by our goal to deliver the most immersive and authentic football experience possible, we're confident in our ability to provide the broadest variety of plays and moments ever seen in a video game. We know you want to see the world of football come to life. FIFA 22 EA SPORTS FIFA Mix FIFA 22 EA SPORTS FIFA Mix. FIFA 22 EA SPORTS FIFA Mix. FIFA 22 EA SPORTS FIFA Mix. FIFA 22 EA SPORTS FIFA Mix. What's new Speed. Control. Accurate shots. This year we're putting the focus on putting all of this gameplay in your hands. In FIFA, it's the real game. We're making all the moves — from the way that ball enters the goal to the way that it leaves the goal — as fluid as
