How to permanently cut hair How to Cut Men's Hair with a Comb
Many men struggle to cut hair on their head; it's far too long. This page will teach you how to easily cut hair with a comb. There are two basic techniques you can use to cut hair with a comb. The most basic technique is to go over the comb in the direction you want to cut, towards the scalp, at a right angle. The next technique is to go over the comb in the direction you want to cut at an angle (A and B), then go over it again in the direction you want to cut at an angle (C and D), then the last time in the direction you want to cut. This is the most common comb cutting method. A comb is a useful tool for cutting hair on the face. Learn how to use it now. This technique works well for short hair or fine hair. The idea is to find the direction of hair growth and go over the comb in that direction until you find hair to trim. It's also a good idea

to lightly moisten the hair with a water spray. This helps prevent hair from springing back up when you cut it. 1.

How to Cut Long Hair with a Comb The first step is to comb the hair by going over the comb in the direction you want to cut at a right angle. 2. To cut longer hair, comb the hair by going over it at an angle A and B, then go over the comb in the direction you want to cut again at an angle C and D. 3. 3. 3. 3. 3. 3. 3. 3. 3. The final step is to go over the comb in the direction you want to
