In writing a thesis and dissertation, you will be expected to present your work in a clear and organized manner. Your thesis/dissertation represents the culmination of many months of work, research and critical examination of the literature.Q: Deploying a Django application from local to the remote server - permissions I have a Django application running on my local windows machine and I want to run it on a remote server. The remote server uses a Linux operating system. Since I'm not very familiar with Linux permissions, I'm unable to run the application on the server without getting an error. I know it has to do with the permissions for the folder /home/djangoapp/, so is there a way to set the permissions so that I can run the application? A: Check your current app settings. These settings do not work well when you deploy your app. \$ django --version Welcome to Django's documentation! View the Django's documentation homepage.
