smart professional software that was made out of a precise combine of two design packages. Q: How to wrap text in a read-only HTML div so text is not editable? I've got a read-only div which displays some text. The problem is that the div is editable if you move the mouse cursor into the div as in this example: this is a read-only text I would want the div to be read-only and no mouse cursor to appear inside it.

Does anybody knows how to do this please? A: Use the contenteditable=false property on the div. this is a read-only text About Us Blue Moon Public Works provides a full spectrum of civil engineering services to clients across a broad spectrum of industries and projects. The primary goal of d0c515b9f4
